

TRACme™

PERSONAL LOCATOR BEACON

- When activated, your TracMe transmits a voice message: "Help...Emergency" every 15 seconds up to 7 days to Ch1 on FRS/GMRS trail radios and Search and Rescue communications.
- If you activate your TracMe for a Search and Rescue event, we will replace it free of charge.*
- One-time use is designed to avoid dead battery risk in an emergency or inappropriate activation.
- Works for 10 years using long-lasting lithium battery.
- Waterproof and submersible to 3 feet.

Complies with U.S. & Canadian regulations:
Part 15 FCC Rules FCC: TAI 0000TB1
IC: 5872A-0000TB1 ✓ N14946

Patent No. PCT/AU2004/001614
Model No. TPLB-1
Compatible with Trail Radio FRS/GMRS CH1

This unit is programmed for use only in:

- Australia - UHF CH5
- USA/Canada - FRS CH1
- Europe - PMR CH8

RoHS compliant via EU Standard July 1, 2006

Made in Australia by:
TracMe Beacons Pty Ltd www.TracMe.com

DISCLAIMER: While all care has been taken to ensure that the TracMe Personal Locator Beacon (TracMe) and the enclosed Instruction Manual have been created with the highest quality standards, TracMe Beacons P/L will not be held responsible for any use, or misuse of the TracMe. The TracMe is intended to assist or complement search and rescue operation and is not intended to be used as a substitute for that operation. TracMe is not an EPIRB unit and does not communicate via satellite. Your TracMe should not be used as a substitute for an EPIRB.

OUR MISSION: TracMe will enable rescuers to find you as soon as possible if you are lost!

WARRANTY: If your TracMe fails a Self Test within the first 12 months of purchase, logon to www.TracMe.com/faq/Warranty for return instructions.

IMPORTANT USER PRACTICES: TracMe recommends these user practices for proper use and care.

Do:

1. Read all TracMe use and Self Test instructions.
2. Plan your expedition, hike, or extended backcountry/padding trip carefully; don't forget your 10 Essentials. Before your departure, leave written instructions about your location and itinerary with the phone number of the nearby County Sheriff and display your TracMe card at home and in your car.
3. Store your TracMe in a dry location.
4. Self Test your TracMe before your trip; it is critical that you follow each function described in the Instruction Manual.
5. Replace your TracMe before your trip if it fails the Self Test instructions.
6. Self Test your TracMe during your trip using the directions in the Instruction Manual. We recommend carrying a spare TracMe.
7. Replace the TracMe if the security seal is broken or it has passed its replacement date (See the decal on back of your TracMe beacon).*
8. Wear your TracMe so that you can grab it easily with either hand.
9. Use the TracMe only in the country indicated on the rear of the TracMe. Different countries use different radio rescue frequencies.

Don't:

1. Do not use or attempt to use a TracMe that has had its security seal broken.
2. Do not immerse your TracMe into water below the depth specified in the Instruction Manual.
3. Do not attempt to activate your TracMe other than as written in the Instruction Manual.
4. Do not activate your TracMe unless you are lost, injured or require serious medical attention.
5. Do not leave the vicinity of your TracMe once you have activated it.
6. Do not deactivate your TracMe until help has arrived and you have been rescued.
7. Do not attempt to re-use your TracMe once deployed. Use once only as directed, and then return your expended unit to TracMe Beacons P/L (see Instruction Manual for details).*

TracMe Beacons P/L, its contractors, agents and staff are in no way liable for any loss or damage whatsoever (including special, indirect or consequential loss or damages) arising out of or in connection with the use or performance of the TracMe, whether at common law (including in contract and in tort including negligence), in equity, pursuant to statute or otherwise. This disclaimer does not exclude, restrict or modify warranties or conditions that TracMe Beacons P/L cannot, by law exclude, restrict or modify. In the event that TracMe Beacons P/L is found to be liable for breach of any such warranty or condition, to the extent permitted by law, the liability of TracMe Beacons P/L shall be limited, at its option, to 1) the replacement of the TracMe, the supply of equivalent goods, or the repair of the TracMe; or 2) payment of the cost of replacing the TracMe or acquiring equivalent goods.
