Attention: Sailing Office.

In relation to my boat *Liquid Asset* complying with stability index for ORC race category one events. These boats have been racing offshore since 1976 and are well known for their seaworthiness.

Liquid Asset is a stock standard Duncason 34, equivalent boats that have been measured for IMS have a calculated limit of positive stability figure of: *Stargazer* 117.7, *Take Five* 120.0.

I am sure there are numerous other examples available to you that fall in the indicated range.

Yours faithfully,

MAURICE CONTESSI
