## RRemote RRelease

### 4R Safety Harness Lanyard – New from Stormy Seas (Aust) Pty.Ltd.

This lanyard will revolutionise the wearing of safety harnesses on board yachts at sea!!

\* The lanyard is attached in the normal way – one handed, then can be tripped from the safety of a distant secure point.

\* 4 Points on the line for release – wearer end hook, wearer end line, mid line and strap shackle end.

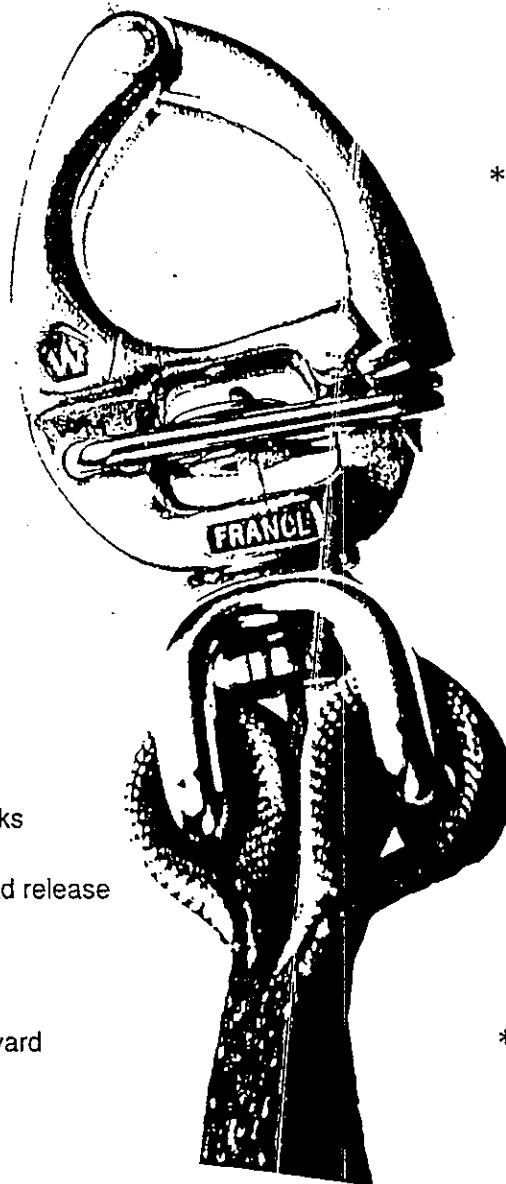

\* Will unload while under load e.g. if being dragged under vessel.

\* With companion short line, allows total securing to vessel while moving around.

\* Overcomes “roll-off” problems experienced with standard carbine hooks

\* Does not require double action or load release to release.

\*Go below decks before retrieving lanyard from deck securing point.

\* High grade marine stainless.

\* Streamlined profile will not snag when released.

\* Internal release cord.

\* Swivel head cannot foul.

\*One hand attach.

\*One hand release.

\*Squeeze shut with audible click.
